DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 14-18, 28-30, 35, 36 and 40-47 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hill.

Claim Rejections - 35 USC § 112

3. Claims 19-27 and 31-34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 19, line 3, "linkage" inherently should be changed to -- latch mechanism --. Claims 31 and 37 are misdescriptive because the linkage does not rotate but it does translate (see page 8, paragraph [0036]).

Allowable Subject Matter

4. Claims 5-13 and 37-39 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 19-27 and 31-34 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
